SUMMARY

I am passionate about software development and new technologies. Seeking an entry-level software development role to apply technical skills, contribute to real-world projects, and grow as a professional.

WORK EXPERIENCE

Frontend Developer Intern - Uptricks Services Pvt. Ltd.

During this internship, I learnt about basics of front-end tools like HTML, CSS, JavaScript, React. I worked over building front-end of a website of FinTech company.

PROJECTS

Agency AI

[Live Demo](#)

A modern and responsive digital agency website built using React.js. The project presents digital services, creative solutions, and agency information through a clean, visually engaging, and user-friendly interface.

Job Portal

[Github Link](#)

Developed a full-stack job portal web application. This project is a fully functional job portal used by aspirants and recruiters. This project includes frontend tools like HTML, CSS, JavaScript, React as well as backend tools like Node.js, Express.js, and MongoDB for database.

Personal portfolio

[Live Demo](#)

This is my personal developer portfolio built using React.js. This dynamic and visually appealing portfolio provides a comprehensive view of my abilities and achievements.
